

# Author's Note to Revision Service 4

The existing material has been updated to reflect changes in conveyancing practice and legislation up to 1 December 2013.

Of specific interest is:

1. The inclusion of an introductory chapter (Chapter 44) on the National Credit Act 34 of 2005, viewed from a conveyancing perspective.
2. The process of applying to SARS for transfer duty receipts/exemptions have become a fully online process. Many changes to the procedure were made since commencement of the e-filing system. My sincere thanks go to Ninette Tarlton who ably assisted in updating the relevant material to reflect the current position.
